STUDEBAKER NATIONAL MUSEUM

More than Four Walls and a Chandelier
ABOUT US

The Studebaker National Museum offers a sophisticated atmosphere unlike any other venue. With 55,000 square feet of classic automobiles and historic artifacts, your event will be both impressive and memorable. The AM General Atrium is an open, welcoming space. The high ceiling with a skylight gives visitors the feeling of standing in an early automobile factory. Guests will be drawn further into the Atrium by the Carmichael Bullet Nose Gallery, which features one of the Museum’s cars on a turntable. This space is available for rental after 6:00pm. The Board Room is available for rental during Museum open hours. Located just outside the second floor gallery, the Board Room is perfectly located for guests who wish to combine business with pleasure.
